

How does the sale work?

You tag your children's items yourself, write them down in an overview and bring them to the von uns! STORE.

tags

You can get the tags and the fasteners (see photo) free of charge in the von uns! STORE.

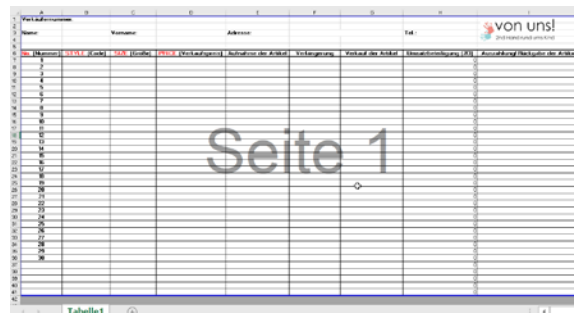

articles - overview

You can comfortably from home download the excel file article overview and the corresponding legend from our website www.vonuns.store/DOWNLOADS/ and simply enter up to 30 children's items you would like to hand in. Line 3 and columns B, C and D are identical to the categories on the tags and must be filled in. You will find the STYLE codes for column B in the legend. Column A in the excel sheet corresponds to "No." on the tag. Please write the number from the excel sheet on the corresponding tag.

summary:

1. download article overview and legend
2. fill in article overview
3. label the tags

We have also included an example for you in the downloads.

price

You determine the price for your children's items. We recommend a realistic assessment of the articles (age, condition). We know that many items also have a sentimental value for you. However, please try to give an objective, realistic price indication. Finally, send the article overview (before handing in the items) by e-mail to verkauf@vonuns.store.

handing in

Now please bring your items to the von uns! STORE and we will take care of the sale!

Instagram

To make the sale a little more personal, we will be happy to introduce you on Instagram. Of Course, only who would like to!
